Largest non-metallic stock  
in North America

In its 92,000 sq.ft. warehouse, VES stocks a multi-million dollar inventory for immediate shipment.

# INTRODUCING:

*The Newest 40-Year-Old Kid on the Block*

Allied Moulded's knowledge and experience in fiberglass reinforced material go back 40 years. So we know fiberglass, and that's why you can expect quicker turnaround on quotes and standard orders from Allied. We also complete custom orders quickly, such as color selection, meeting your specific application requirements.

Our fiberglass reinforced enclosures provide maximum

protection and durability, and are able to withstand both extreme weather and harsh factory conditions. Allied's larger enclosures feature one-piece body construction for added strength and dimensional stability. Our extended line of enclosures allows you a variety of sizes and styles to meet your specific needs.
